

**Why the best architects,
specifiers and installing
contractors choose SAF
Column Covers, Beam
Wraps & Panel Systems.**

Architectural Column Covers, our fabrication specialty...

SAF Fabrication is an experienced fabricator of metal & ACM column covers. We make it easy for specifiers and installers with our pre-engineered approach. Specifications and CAD details for the SAF 1000 Series (butt joint) and 2000 Series (reveal joint) column covers may be downloaded from www.saf.com. Choose from a wide selection of material and finish options, including kynar painted aluminum, anodized aluminum, stainless steel (brushed, mirrored, patterned metals by Rimex®), 4mm and 6mm aluminum composite material from Alpolic®, Alucobond®, and Reynobond®. SAF also fabricates custom column covers including square, elliptical, and conical shape column covers based on your project needs. Ask about our XpressShip column cover program and shipping in just 2 weeks!

Simply fax your request to our toll free fax number: 877-949-4759.

About SAF

SAF is a processor, distributor and custom finisher of aluminum. We provide high quality finished and fabricated aluminum architectural products to the commercial construction industry, including column covers, beam wraps, and panel systems. Through proven technical expertise and manufacturing flexibility, we maintain a consultative relationship with our customers, listening to their needs and providing the best solution.

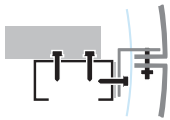

Southern Aluminum Finishing Company

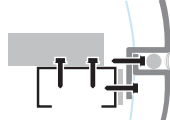

Pre-engineered column covers & beam wraps save installation time...

M-Series Metal Column Covers

In addition to 57 standard colors offered by SAF we also offer computerized custom color matching and a variety of popular anodized colors.

Choose from Sheet, Perforated and Embossed Materials:

- 3000 Series Aluminum Alloys
- 5005 Series Anodize Quality Aluminum Alloys
- 300 Series Stainless Steel Alloys (Brushed or Mirror Finish)
- Other Specialty Metals (Including Perforated, Embossed and Woven Materials)

By using a pre-engineered system approach, SAF can quickly design and fabricate column covers and beam wraps that are easy to install, enabling smoother work flows on the job site. Column cover configurations include halves, thirds and quarters with or without vertical reveals or horizontal reveals at the base, middle and/or top.

C-Series ACM Column Covers

In addition to the full array of popular, standard colors offered in aluminum composite material by REYNOBOND® or ALPOLIC®, SAF also offers custom color service with a slightly longer lead-time.

Choose from:

- 3mm Standard Core
- 4mm Standard Core
- 6mm Standard Core
- 6mm Fire-Rated Core

REYNOBOND is a registered trademark of Alcoa. ALPOLIC is a registered trademark of Mitsubishi

SAF Custom Fabrication

Give us a design challenge and our fabrication and finishing experts will create a solution. SAF's complete inventory, fabricating, anodizing and finishing facilities offer customers unparalleled benefits in speed, quality and enduring aesthetics. Simply provide us with drawings or sketches and we will respond with a complete written proposal and schematic representation of our products for your building, typically in less than one business day.
